ABOUT ME

Flexible computer science student who are eager to learn and challenge the status quo. Will finish my Sophomore year in May 2021.

EDUCATION

The University of Hong Kong, Hong Kong   September 2020 – June 2024

Bachelor of Engineering (Computer Science)

GPA: 3.67 / 4.3   *(up to Year 1 Semester 2)*

Relevant course list in page 2

SKILLS

Programming Languages	Python, C++, Java, C
Python Libraries	Pandas, NumPy, MatPlotLib, Seaborn, Scikit-learn
Web Design	HTML, CSS, JavaScript
Tools & Platform	Git, Jupyter Notebook, LaTeX
Operating Systems	Windows, Linux
Languages	English, Chinese (Native), French (Elementary)

STRENGTH

Quick Learner, Communication, Time Management, Well Organized

WORK EXPERIENCE

Question Database Developer Internship   July 2021 – August 2021

Quanti-dimension Concept Limited

· Developed the **Excel question database** for an elementary school level education app

· **Generate graphs and images** by **Python** for question description and data visualization

· Review, code, and debug **Excel VBA scripts** for automation and user-defined function

· Collaborate with the software development team and education team

RELEVANT COURSES

Please see transcript for detail course list

Year1

Computer programming I (Python)

Computer programming II (C++/C, Linux, Bash, Git)

Linear Algebra, Probability & Statistics

Year2

Object-oriented Programming & Java

Intro to Data Structures & Algorithms

Computer Organization

Calculus & Ordinary Differential Equations

Discrete Mathematics

Intro to Data Science & Engineering

Modern Technologies on World Wide Web*

* Will be taken in the second semester
